2. The following is an examiner's statement of reason for allowance:

With regard to system claims 1-10 and 26-29, the prior art of record, either singularly or in combination, does not disclose or suggest at least the claim limitations of “a substrate transfer mechanism positioned in the processing volume and configured to transfer substrates between the heating plate and the cooling plate” as instantly claimed and in combination with the remaining elements.

With regard to system claims 11-21, the prior art of record, either singularly or in combination, does not disclose or suggest at least the claim limitations of “a substrate transfer robot positioned to receive a substrate from an externally positioned robot in a face up orientation and position the substrate onto the heating plate and the cooling plate in the face up orientation” as instantly claimed and in combination with the remaining elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
